COMPETITION**

Welcome to 3rd International Academic Research Competition 2026

Sponsored by SaveMyExams & Domain.ME

Details

- First, check your inbox, Promotions, Updates, and Spam folders for the welcome email.
- Next, find your login details and log in to the Bootcamp Portal, where you will find all the details and pre-recorded sessions on how to write a research proposal properly. Complete all the sessions.
- In the left sidebar, you will find all the submission links. However, the assessment link will open on September 10 for five days. You can log in using the same credentials as your Bootcamp Portal.
- This is a secure environment, and any unauthorized activity will lead to disqualification from the assessment and the forfeiture of your Participation Certificate. To receive the Participation Certificate, you must complete this multiple-choice quiz on Research 101. The portal uses a randomized question pool, so everyone receives a unique set of questions.
- You cannot share screens, take screenshots, switch tabs, right-click, or use keyboard shortcuts. Doing so will result in immediate disqualification from receiving the Participation Certificate. However, even if you do not participate in or are disqualified from the assessment, you can still submit your research proposal, as this research competition is evaluated based on the proposal, not the quiz.

Review the details below:

Details

- First, log in to the bootcamp. Check and read the homepage content carefully, especially your category details. If your category is displayed incorrectly, email us for changes; otherwise, all of your certificates will reflect the wrong category.
- Click next to access the bootcamp sessions. You can download the resources and proposal template from the Practice Research Proposal lecture resource section.
- On September 10, you will receive the link to the assessment portal, where you can log in and take the quiz.
- You can submit your research proposal anytime between September 5 and September 15, 2026. Judges will evaluate your submission based on the rubrics.
- The top 50 participants in each category will be notified and sent a link to submit their Research Pitch.

Tips:

- Check your formatting carefully, especially the in-text and reference citations, using the YRJ Advanced Citation Generator.
- To build a strong project, review the work of our previous winners.
- Since this is a competition, focus on bringing creativity to your submission.

FAQs

- **Can you submit multiple entries?**
- → No, only one submission is allowed per person, so verify everything carefully before submitting.
- **Will the deadline be extended for any reason?**
- → Definitely no. All links will close automatically after the deadline.
- **Can you change details via email?**
- → No. You can email us your queries, but check our website FAQ first. If your question is not covered in the FAQ, we will reply, otherwise, you will not receive a response.

Thank You!
